## **Are you looking for alternatives to traditional chlorine tablets?**

Hayward's AquaRite 900 can be added to your existing pool equipment making it as easy as 1,2,3 to convert your pool from chlorine to mineral salt. Install, add minerals and turn the unit on. Simple! Make as much natural chlorine as you need, while eliminating the use of tablets, shock and algaecide. Additionally, Hayward offers their HydroRite UVO3 system which is a combination UV and ozone unit that works with your choice of sanitizer to drastically reduce your overall chemical usage and destroy 99.9% of all bacteria. What are you waiting for? Ask us how you can start enjoying truly pristine water!

## **Feel like your swimming season isn't long enough?**

If you have ever felt like Summer flies by and it's once again time to close the pool, you should consider a Hayward Summit XL heat pump. Enjoy spending more time with family and friends by adding months to your swimming pool use. All Summit XL models provide thermally efficient heat pump technology that reduces energy consumption. With Hayward's industry leading warranty, 5 years on parts and 2 years on labor, why delay?

## **Wish there was a way to control your pool remotely?**

Introducing the Hayward VS Omni variable speed pump line with Smart Pool Control, allowing you to do just that! These pumps can be easily installed on existing pools giving you the freedom to control up to four functions (pump, heater, pool lights) from your smartphone, computer or voice control. This affordable automation is capable of 90% savings on energy costs per year.
